

## **WEST GEORGIA EYE CARE CENTER FINANCING INFORMATION FOR PREMIER PROCEDURES**

At West Georgia Eye Care Center we are focused on serving all the needs of our patients, and are dedicated to offering the most advanced technologies available in eye care and eye surgery. We would never want to sacrifice quality for cost control, yet we understand that cost is a concern. We strive to provide the most affordable means for our patients to receive the very best in technology service. We participate with financial providers to offer affordable options.

The two plans currently available to qualified applicants are as follows:

**18 Month Interest Free** – This plan is available through Unicorn Financial. Interested patients may contact an account representative at **(888) 388-7633**. The representative will ask for a number to identify your doctor. That number is 31140. We will provide you with a brochure that has helpful information and the account representative will be able to assist you with specific questions.

**Extended Monthly Payments** – There are monthly interest bearing payment plans of varied duration which allow you to make smaller payments for an extended time. These are provided by Capitol One finance and interested patients may contact them at **(877) 559-5050**.

Examples –

If you wanted to finance \$3,000.00 for a procedure, with the 18 month interest free plan you would be responsible for 18 monthly payments of about \$167 (estimated payment).

The same amount, \$3,000.00 financed on an extended 60 month plan would require 60 payments ranging from \$62 to \$88 (estimated payment).

We have friendly staff waiting to answer any questions that you may have about the options to finance your eye procedure. Please contact us at (706) 323-3491 extension 130.
